Professional Summary

Technical Product Analyst and Product Manager with 10+ years of professional experience, including 6 years in product, platform and technology-focused roles across healthcare technology, SaaS and e-commerce. Skilled in product discovery, technical requirements, workflow optimisation and data-informed decision-making. Experienced in translating complex business and operational needs into scalable product solutions, partnering with engineering teams and delivering improvements from discovery through release.

Core Skills & Tools

- Product discovery, user research & workflow analysis
- Technical requirements, user stories & acceptance criteria
- Product roadmaps, prioritisation & backlog management
- Scrum facilitation & release/change management
- Product analytics, success metrics & data-informed decisions
- Cross-functional collaboration: Product, UX, Engineering, QA & Operations
- Jira Ecosystem Expertise (Project / Service Management, Product Discovery, Confluence, Rovo)
- Pendo, Dovetail, Databricks, SQL Server Management Studio (SSMS)
- Product Design / Prototyping (Figma, Zeplin, Miro, and AI tools:Claude, Gemini, ChatGPT)

Professional Experience

Technical Product Analyst

Everlight Radiology (Telehealth) | Feb 2026 – Present

- Bridge Product and Development teams, translating customer, clinical and operational needs into clear requirements and actionable delivery work.
- Work with product stakeholders to shape features from discovery and requirements definition through development, testing, release and change management.
- Facilitate Scrum ceremonies for one development squad, supporting team alignment, backlog flow and delivery discipline.
- Collaborate across operations, radiology and support user groups to identify workflow pain points and deliver feature improvements.
- Contribute to user stories, requirements and product documentation to help product and engineering teams share a clear understanding of user problems and expected outcomes.
- Key Projects include: Aidoc integration and notification rollout; Case Assignment automation; Case study description normalisation and order-ingestion workflows; Support-portal self-service alert configuration; Billing Coding system migration; regional reporting enhancements.

Product Manager

BarBooks Australia (Legal SaaS) | Jul 2022 – Feb 2026

- Owned end-to-end product lifecycle for a legal practice management platform now serving Barristers and Clerks across chambers from AU, UK and SG markets.
- Developed and executed product roadmaps in collaboration with leadership, engineering, and UX.
- Led discovery, define BRDs/PRDs, and manage backlog and produced product documentation via Jira and Confluence.
- Conducted user interviews and testing to validate concepts, enhance usability, and improve adoption.
- Acted as Product Owner and Scrum Master, running all agile ceremonies and ensuring delivery velocity.
- Led cross-functional delivery teams across product, engineering, support, and customer success.
- Reported KPIs and feature impact to C-level stakeholders and ensured alignment to business goals.
- Key Projects include: Diary features (Booking creation flows), Accounting features (Invoicing, Reporting, Debt chasing), Outlook Calendar and Email Integrations, Dynamic 365 integration, Multi factor authentications (MS SSO and BB 2FA), GoodData Analytics Integration

Business Product Lead – Shopee Ads

Shopee Philippines (eCommerce Platform) | May 2021 – Jul 2022

- Country lead for Shopee Ads across Marketplace, Mall/Brand, and Cross-border segments.
- Collaborated with regional PMs in Singapore to execute product launches, A/B tests, and UATs.

- Spearheaded go-to-market programs that doubled ad revenue YOY.
- Built product usage dashboards and delivered insight-led performance reviews to brand partners.
- Managed an 18-person paid ads team, optimizing operations and coaching team members.

Program Management Associate – Seller Strategy
Shopee Philippines (eCommerce Platform) | Nov 2020 – May 2021
- Used product and user data to design programs that improved ads adoption and revenue.
- Owned end-to-end implementation: strategy, execution, reporting.
- Collaborated across Product, BI, Marketing, and Business Development teams.
- Built KPI dashboards and maintained data accuracy across performance trackers.

Business Development Officer
PAL Express (Airline) | Apr 2018 – May 2020
- Led business proposals for new hubs, routes, and company reorganization strategies.
- Produced key reports: route profitability, market competition, cost-efficiency.
- Helped launch 'Guide to the Philippines', a digital travel platform and new business line.
- Built manuals and readiness checks for new route and hub rollouts.

Business Development – Startup (Concurrent with PAL Express)
Guide to the Philippines (Online Travel Platform) | Jan 2019 – Apr 2020
- Led operational buildout: vendor onboarding, process flows, QA, and dashboards.
- Supported concept-to-launch execution including business models and system testing.

Project Development Specialist (Management Trainee)
Filinvest Land Inc. | Aug 2015 – Feb 2018
- Rotated through departments under a leadership program.
- Handled feasibility studies, financial models, budgeting, and sales strategies for residential projects.
- Proposed raw land development opportunities and managed lifecycle from concept to handover.
